On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
Some History on the Arab-Israeli Conflict	The Balfour Declaration, issued on November 2nd, 1917, supported a state to be given to the Jews and then, on November 29, 1947, "the (UN) voted to partition the British mandate of Palestine into a Jewish state and an Arab state." ^{1a} Once the Mandate for Palestine came to an end, the Jews took the initiative to fill in the power vacuum that had been created ^{1b} by declaring Israel's independence on May 14th. The Arabs attacked Israel, the newly formed state, on the day after, May 15th, 1948. Whether through miracles or the strength of the IDF, Israel has held on ever since.	The ratio of losses from the first war was 1:1.6. Before October 7th, 2023, the ratio was 1:7, with the average, post-October 7th results moving to 1:10. The Arabs have always been the instigators in these wars.
On the Prophecy of the Arab-Israeli Conflict	While there are a number of verses in the Bible that cover the Arab-Israeli conflict, Ezekiel 36:7 remains the main text. Basically, the nations that surround Israel, known as the Muslim nations, would suffer reproach for the way they have treated the Jews. The Palestinians have shot around 39,000 rockets into Israel ^{1c} , taking 145 rockets to kill one Israeli. However, just one of their misfires, which have been many, killed close to 500 Palestinians ^{1d} . The Muslims have repeatedly stated their aim to destroy Israel, and public opinion often sides with the Muslims.	Does their drive come from religion or from a personal vendetta against Israel and the Jews? Arab losses total around 170,000, with Israeli losses totaling a mere 16,000. This conflict is high profile because God has it that way. ^{1e}
On the Big Picture	God is setting up Israel's ministry in order to proclaim His name in the Earth; Israel attaining global dominance will greatly assist in getting the gospel out. If the present situation continues, Israel will gain land by defending itself with wars. God's Word has predicted that Israel would win these wars.	What is written about in Ezekiel 36 is taking place in the world you can see, hear and touch.
On the Goal of the Arab-Israeli Conflict	Since 1948, the Muslims have repeatedly stated their aim to wipe Israel off the face of the Earth. Israel has simply wanted to coexist in peace. The Muslims have repeatedly been the instigators of these conflicts. God has used the situation to bolster Israel's rise to power, which will continue despite the overwhelming odds against Israel. This being in the age of wars, the end, according to Matt 24:6, is not in sight.	Exodus 15:3 states that the LORD is a man of war, meaning there are times a nation must go to war. Ecclesiastes 3:8, a verse on war, supports necessary war.

Israel's existence and success is a testament to the blessing and protection from the God of Israel.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
Whose Side us God on?	God being invisible gives rise to make Him out to be any god people want him to be. Basically, in a time of war, you can make him out to be the god of your country. We cannot see God, but we can see visible victory, according to Ezekiel 36:7 and history, being granted to Israel.	Muslims in the Middle East total 400 million, while the Jews in Israel total a mere 7 million.
On the Names of the Wars	The wars in the Arab-Israeli conflict, which were all started by the Arabs, include the War of Independence (1948), Sinai Campaign (1956), Six-Day War (1967), War of Attrition (1968-1970), Yom Kippur War (1973), Lebanon War (1982-1985), First Intifada (1987-1993), Second Intifada (2000-2005), Second Lebanon War (2006), Operation Cast Lead (2008-2009), Operation Protective Edge (2014), Operation Guardian of the Walls (2021), Operation Breaking Dawn (2022), Operation Shield and Arrow (2023) and the Israel-Hamas War 2023-2026. ^{2a}	
On the Winner & Loser of these Israeli Wars	There is a 100% chance, according to Ezekiel 36:7, that Israel will continue to win wars against the Arabs. With Israel poised to sit in the center of the Earth for millions of years, you can confidently conclude that Israel will be the winner of the Arab-Israeli conflict with flying colors. The Arab world will lose miserably. All of the Gentile and Arab nations, according to Jeremiah 30:11, will come to a full and complete end, while Israel, according to Jeremiah 31:35-36, will continue into perpetuity.	Ezekiel 38:8 indicates that Israel will continue to be shrouded in war. You could actually conclude that this Israel will be built on war.
On Some Miracles in the Arab-Israeli Conflict	ONE, once a rocket was fired that would have killed hundreds of Israelis, but a strong wind blew the rocket into a nearby body of water; TWO, once there was a field full of mines, after which a very strong wind blue the dirt off of the mines, allowing the soldiers to see where the mines were; THREE, once a rocket hit a bus directly when minutes earlier, the bus had been filled with Israeli soldiers; FOUR, one time during a war yet in the 20th century when Israel was still significantly smaller, an audible voice told the enemy to "Go back!"; FIVE, from time to time, Muslim terrorists do claim Israeli lives, but not entire generations as a constant state of war would do to most human societies; SIX, even though the Israelis were outnumbered 20:1 in a battle on April 30, 1948, when they fired the Davidka mortar, a heavy rainstorm ensued, making the Arabs believe Israel let off an atomic bomb, so they fled; ^{2b} SEVEN, in the summer of 2025, even though Iran attacked Israel very heavily, only 28 people died. ^{2c}	Ghazi Hamad, a HAMAS member, has declared publicly that Israel has no place on their land, and that HAMAS would repeatedly reiterate the October 7th, 2023 attacks until Israel is gone. ^{2d}
		It has been reported that terrorist organizations in the Arab world would kill one another would it not be for the destruction of Israel as a common goal.
Israel, poised to sit in the center of the Earth for many millions of years without getting toppled, will be yet another miracle.		

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Author of the Arab-Israeli Conflict	Before Islam, there were tensions between the Arabs and Jews. Ishmael, in fact, according to Genesis 21:9, mocked Isaac, the son of promise. Had Abraham waited on the promise of God rather than seeing Hagar as Sarah had prodded him to, Ishmael would not have been. Ishmael, according to Genesis 16:12, was going to be a “wild donkey of a man (ESV),” mirroring the Arab terrorist organizations that are bent on Israel’s destruction. The terrorist groups HAMAS, Hezbollah, and Al Qaeda, just to name a few, are a testament that Ishmael’s legacy lives on. Many times you have to ask the question, why? Why did God allow this? We cannot see Him, but we can see His wisdom at work. While Islam may not be the main culprit in the Arab-Israeli crisis, the many Allah Akbars that are shouted during the Muslim rampages, makes it appear that the Islam does play a role in the matter.	It seems illogical that the Muslims can, at will, attack and terrorize Israel, and then when Israel responds, Israel gets the blame. However, Israelis have been reported to be in the top 5% of the happiest nations in the world. ^{3a} The terrorist acts can only do so much.
On the Sustainer of the Arab-Israeli Conflict	While God is invisible, allowing you to twist any logic in your favor, the continued existence and success of Israel is abundantly clear. Despite hundreds of thousands of rockets in the Arab stockpile, Israel continues to thrive in pretty much all departments. Not only is the God of Israel protecting and blessing Israel, it is being proven that the God of Israel is the one, true and only God.	Israel is poised to sit in the center of the Earth for a very, very long time.
On the Strength of the Arab-Israeli Conflict	Even with Israel’s military being as powerful as it is, there are still a host of miracles that have been in play. When Iran attacked Israel in June of 2025, there were all kinds of bombs going off across Israel. From the videos online, some may have concluded Israel was getting destroyed. Only 29 people died. The Arabs do all they can to attack and defeat Israel, but Israel is very controlled in their responses. Would Israel go all out as the Muslims do, they’d be destroying Arab nations.	God enjoys being invisible and silent. When He is behind a story, it takes a while for the story to play out. Be patient. Don’t expect to push a button and have the plot play out instantly.
On the Size of the IDF	In 1948, the Israeli military had a mere tens of thousands of soldiers, but including active-duty and reserve personnel, Israel now has hundreds of thousands ^{3b} in their military. Had it not been for the grace of God, there would be no Israel.	It is well-known that Israel is smaller than New Jersey, yet look at the power coming out of Israel.

God does look at numbers, but He is not mesmerized by them as people are.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Size of Future Israel	In the near future, the borders of Israel will mirror Ezekiel 47:13-48:29, keeping Israel a small Israel for the time being. Regarding the distant future, some have Israel taking up most of the Middle East, including parts of modern Turkey. For the time being, let's let God determine the exact borders of New Israel in what era. In the distant future, a changing topography will change up the borders of Israel.	The size of New Israel will have no bearing on the ability of Israel to be a light to the nations. Just look how small Israel is in 2026.
On the Future Role of the New Israeli Military	For now, the IDF, a defensive military, is to protect Israel. In Psalm 149, where the Jews take vengeance on the nations, there will have to be offensive action. The global body of Christ likes to hinge all prophecy on Jesus' return, which is a mistake. Prophecies in Israel, including the Arab-Israeli Conflict, are developing by the day without Jesus' presence in the Earth. With Jesus already delaying His return by 2000 years, it's clear that His return has been delayed.	What would the Arabs do if they had the power that Israel has? Yet Israel has self-control over the power they contain, indicating Israel is getting established by the one, true God.
On the Visibility of God's Work in these Wars	Even with the odds being drastically against Israel, the results of the wars in the Arab-Israeli Conflict are abundantly clear. God is invisible, but his work is in the visible world. When I was in Israel in 2017, except for one round of bullets being fired at a Muslim terrorist, the place seemed quite peaceful and serene. Israelis, while at fear from time to time, actually seem quite safe and secure, not to be confused with Ezekiel 38:11, where there is peace and safety in Israel.	Those that curse Israel, according to Genesis 12:3, will only have the curse return to themselves.
On Ascribing Victory to your God	Since God is invisible, it is easy for man to make God to be any god you want him to be. In most cases, the religious people of the Earth simply take the god of the religion they were born into and make that god out to be their god. When victories take place in war, the winner, even the Bible religions, ascribes the war victory to their god. How do you know that you are serving the real God, even though He is invisible? The Bible is visible, and what is happening in the Middle East is visible even as it lines up with Ezekiel 36. The Palestinians have declared victory a number of times, which Israel allowed, even though there were huge questions on whether they actually won. Of course, they would naturally ascribe their so-called victory to their god. As it is, the Arab casualties have totaled 170,000 in these Arab-Israeli wars while Israel has lost a mere 16,000.	The place of your birth plays a large role in shaping your value and belief systems. How do you know you were born into the right religion? At present, it appears that the Bible religion is something you believe or find out when it is too late. Israel is going to do much to prove in the material world that the God of the Bible is the real God.

I would estimate that around 95% of the world's religious people take on the religion of their birth, gambling that they were born into truth.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Application	TO ISRAEL: With the Arab world wanting to completely eradicate Israel and the Jews, you have permission from God to be far more aggressive with your wars.	The time will come when all, not just most, but all of the Gentile nations presently in power, according to Jeremiah 30:11, will reach a full end. This would include nations such as the United States, Russia, China, and all of the Muslim nations on the globe. Only Israel, which has been chosen by God, will survive into perpetuity. The one and only God, who has chosen to be invisible, is the God of Israel, and He shares His deity with no other god.
	TO THE UNITED STATES: To ensure the longevity and the success of the US, get behind Israel 100%.	
	TO THE ARABS: You guys are always the instigators. To attain peace, you have to stop bothering Israel.	
	TO THE UN: Stop being anti-Israel. If you want to promote peace in the 21st century, there is no need to gather the president of the United and the Prime Minister of Israel. Gather the Arab leaders and convince them to stop bothering Israel.	
	TO THE NATIONS: To ensure the longevity of your nation, including nations like Russia and China, be pro-Israel and follow the Messianic Jews. As Israel gains influence, do not fight it.	
	TO INDIVIDUALS: The Arabs want to wipe Israel off the map. Stop accusing Israel of of war crimes.	
On the Next 5–30 Years	Expect and anticipate Israel's military to continue to gain momentum. Expect Israel to win wars, win wars and win more wars, no matter who the enemy is.	With the prerequisites not met yet, the Ezekiel 38-39 war is NOT imminent.
On the Next 100–1000 Years	Expect major changes regarding the borders of Israel and the nations in the Middle East. The borders for New Israel are found in Ezekiel 47:13-48:29. One thousand years may be enough for all of the main gist of Ezekiel 36-39 to be fulfilled, but parts of Ezekiel 36 will continue into perpetuity.	GDP and the indices will continue into perpetuity. Immigration and the Arab-Israeli Conflict will reach a full end.
On the Distant Future	In the distant future, Israel will most certainly get control of the globe. ^{5a} To reach out even further, while Israel as a nation will not falter, the Israels of God, times when the Jews are saved and in control of the globe, will falter. If you live in a day like that, the situation will be different.	When the Israel's of God falter, the torch of leading God's work in the Earth will fall onto the Gentiles.

As stated before, it's not just one or two verses in Ezekiel 36 being fulfilled, but the entire chapter is en route.

^{5a} See Psalm 149:6-9, Isaiah 60:12, Jeremiah 12:16-17, & Zechariah 14:16-19.

All of the Gentile and Arab nations, according to Jeremiah 30:11, will come to a full and complete <i>end</i> , while Israel, according to Jeremiah 31:35-36, will continue into perpetuity.	Ezekiel 38:8 indicates that Israel will continue to be shrouded in war. You could actually conclude that this Israel will be built on war.
On Some Miracles in the Arab-Israeli Conflict	ONE, once a rocket was fired that would have killed hundreds of Israelis, but a strong wind blew the rocket into a nearby body of water; TWO, once there was a field full of mines, after which a very strong wind blue the dirt off of the mines, allowing the soldiers to see where the mines were; THREE, once a rocket hit a bus <i>directly</i> when minutes earlier, the bus had been filled with Israeli soldiers; FOUR, one time during a war yet in the 20th century when Israel was still significantly smaller, an audible voice told the enemy to "Go back!"; FIVE, from time to time, Muslim terrorists do claim Israeli lives, but not entire generations as a constant state of war would do to most human societies; SIX, even though the Israelis were outnumbered 20:1 in a battle on April 30, 1948, when they fired the Davidka mortar, a heavy rainstorm ensued, making the Arabs believe Israel let off an atomic bomb, so they fled; ^{2b} SEVEN, in the summer of 2025, even though Iran attacked Israel very heavily, only 28 people died. ^{2c}	Ghazi Hamad, a HAMAS member, has declared publicly that Israel has no place on their land, and that HAMAS would repeatedly reiterate the October 7th, 2023 attacks until Israel is gone. ^{2d}
		It has been reported that terrorist organizations in the Arab world would kill one another would it not be for the destruction of Israel as a common goal.
Israel, poised to sit in the center of the Earth for many millions of years without getting toppled, will be yet another miracle.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Author of the Arab-Israeli Conflict	Before Islam, there were tensions between the Arabs and Jews. Ishmael, in fact, according to Genesis 21:9, mocked Isaac, the son of promise. Had Abraham waited on the promise of God rather than seeing Hagar as Sarah had prodded him to, Ishmael would not have been. Ishmael, according to Genesis 16:12, was going to be a “wild <i>donkey</i> of a man (ESV),” mirroring the Arab terrorist organizations that are bent on Israel’s destruction. The terrorist groups HAMAS, Hezbollah, and Al Qaeda, just to name a few, are a testament that Ishmael’s legacy lives on. Many times you have to ask the question, why? Why did God allow this? We cannot see Him, but we can see His wisdom at work. While Islam may not be the main culprit in the Arab-Israeli crisis, the many Allah Akbars that are shouted during the Muslim rampages, makes it appear that the Islam does play a role in the matter.	It seems illogical that the Muslims can, at will, attack and terrorize Israel, and then when Israel responds, Israel gets the blame. However, Israelis have been reported to be in the top 5% of the happiest nations in the world. ^{3a} The terrorist acts can only do so much.
On the Sustainer of the Arab-Israeli Conflict	While God is invisible, allowing you to twist any logic in your favor, the continued existence and success of Israel is abundantly clear. Despite hundreds of thousands of rockets in the Arab stockpile, Israel continues to thrive in pretty much all departments. Not only is the God of Israel protecting and blessing Israel, it is being proven that the God of Israel is the one, true and only God.	Israel is poised to sit in the center of the Earth for a very, very long time.
On the Strength of the Arab-Israeli Conflict	Even with Israel’s military being as powerful as it is, there are still a host of miracles that have been in play. When Iran attacked Israel in June of 2025, there were all kinds of bombs going off across Israel. From the videos online, some may have concluded Israel was getting destroyed. Only 29 people died. The Arabs do all they can to attack and defeat Israel, but Israel is very controlled in their responses. Would Israel go all out as the Muslims do, they’d be destroying Arab nations.	God enjoys being invisible and silent. When He is behind a story, it takes a while for the story to play out. Be patient. Don’t expect to push a button and have the plot play out instantly.
On the Size of the IDF	In 1948, the Israeli military had a mere tens of thousands of soldiers, but including active-duty and reserve personnel, Israel now has hundreds of thousands ^{3b} in their military. Had it not been for the grace of God, there would be no Israel.	It is well-known that Israel is smaller than New Jersey, yet look at the power coming out of Israel.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Size of Future Israel	In the near future, the borders of Israel will mirror Ezekiel 47:13-48:29, keeping Israel a small Israel for the time being. Regarding the distant future, some have Israel taking up most of the Middle East, including parts of modern Turkey. For the time being, let's let God determine the exact borders of New Israel in what era. In the distant future, a changing topography will change up the borders of Israel.	The size of New Israel will have no bearing on the ability of Israel to be a light to the nations. Just look how small Israel is in 2026.
On the Future Role of the New Israeli Military	For now, the IDF, a defensive military, is to protect Israel. In Psalm 149, where the Jews take vengeance on the nations, there will have to be offensive action. The global body of Christ likes to hinge all prophecy on Jesus' return, which is a mistake. Prophecies in Israel, including the Arab-Israeli Conflict, are developing by the day without Jesus' presence in the Earth. With Jesus already delaying His return by 2000 years, it's clear that His return has been delayed.	What would the Arabs do if they had the power that Israel has? Yet Israel has self-control over the power they contain, indicating Israel is getting established by the one, true God.
On the Visibility of God's Work in these Wars	Even with the odds being drastically against Israel, the results of the wars in the Arab-Israeli Conflict are abundantly clear. God is invisible, but his work is in the visible world. When I was in Israel in 2017, except for one round of bullets being fired at a Muslim terrorist, the place seemed quite peaceful and serene. Israelis, while at fear from time to time, actually seem quite safe and secure, not to be confused with Ezekiel 38:11, where there is peace and safety in Israel.	Those that curse Israel, according to Genesis 12:3, will only have the curse return to themselves.
On Ascribing Victory to your God	Since God is invisible , it is easy for man to make God to be any god you want him to be. In most cases, the religious people of the Earth simply take the god of the religion they were born into and make that god out to be their god. When victories take place in war, the winner, even the Bible religions, ascribes the war victory to their god. How do you know that you are serving the real God, even though He is invisible? The Bible is visible, and what is happening in the Middle East is visible even as it lines up with Ezekiel 36. The Palestinians have declared victory a number of times, which Israel allowed, even though there were huge questions on whether they actually won. Of course, they would naturally ascribe their so-called victory to their god. As it is, the Arab casualties have totaled 170,000 in these Arab-Israeli wars while Israel has lost a mere 16,000.	The place of your birth plays a large role in shaping your value and belief systems. How do you know you were born into the right religion? At present, it appears that the Bible religion is something you believe or find out when it is too late. Israel is going to do much to prove in the material world that the God of the Bible is the real God.

I would estimate that around 95% of the world's religious people take on the religion of their birth, gambling that they were born into truth.

On the Arab-Israeli Conflict

TOPIC	EXPLANATION	NOTES
On the Application	TO ISRAEL: With the Arab world wanting to completely eradicate Israel and the Jews, you have permission from God to be far more aggressive with your wars.	The time will come when all, not just most, but all of the Gentile nations presently in power, according to Jeremiah 30:11, will reach a full end. This would include nations such as the United States, Russia, China, and all of the Muslim nations on the globe. Only Israel, which has been chosen by God, will survive into perpetuity. The one and only God, who has chosen to be invisible, is the God of Israel, and He shares His deity with no other god.
	TO THE UNITED STATES: To ensure the longevity and the success of the US, get behind Israel 100%.	
	TO THE ARABS: You guys are always the instigators. To attain peace, you have to stop bothering Israel.	
	TO THE UN: Stop being anti-Israel. If you want to promote peace in the 21st century, there is no need to gather the president of the United and the Prime Minister of Israel. Gather the Arab leaders and convince them to stop bothering Israel.	
	TO THE NATIONS: To ensure the longevity of your nation, including nations like Russia and China, be pro-Israel and follow the Messianic Jews. As Israel gains influence, do not fight it.	
	TO INDIVIDUALS: The Arabs want to wipe Israel off the map. Stop accusing Israel of war crimes.	
On the Next 5–30 Years	Expect and anticipate Israel's military to continue to gain momentum. Expect Israel to win wars, win wars and win more wars, no matter who the enemy is.	With the prerequisites not met yet, the Ezekiel 38-39 war is NOT imminent.
On the Next 100–1000 Years	Expect major changes regarding the <i>borders</i> of Israel and the nations in the Middle East. The borders for New Israel are found in Ezekiel 47:13-48:29. One thousand years may be enough for all of the main gist of Ezekiel 36-39 to be fulfilled, but parts of Ezekiel 36 will continue into perpetuity.	GDP and the indices will continue into perpetuity. Immigration and the Arab-Israeli Conflict will reach a full end.
On the Distant Future	In the distant future, Israel will most certainly get control of the globe. ^{5a} To reach out even further, while Israel as a nation will not falter, the Israels of God, times when the Jews are saved and in control of the globe, will falter. If you live in a day like that, the situation will be different.	When the Israel's of God falter, the torch of leading God's work in the Earth will fall onto the Gentiles.
As stated before, it's not just one or two verses in Ezekiel 36 being fulfilled, but the entire chapter is en route.		

^{5a} See Psalm 149:6-9, Isaiah 60:12, Jeremiah 12:16-17, & Zechariah 14:16-19.
