On Israel's Material Blessings

TOPIC	EXPLANATION	NOTES
On the Big Picture in Light of Material Blessings and Physical Strength	Without a God-ordained central figure leading the way, the world's religions, which number 4000 today and the body of Christ, which is comprised of 45,000 denominations, the myriads of different directions will only multiply. From the get-go, God was going to select a people group, which are the Jews, and a nation, which is Israel, to act as the leader or a light to the nations. To an extent, Israel will lead by force, otherwise there would be no way to prove that they have been sent by God. That light to the nations is in the process of forming, and had it not been for human nature, Israel would have arrived onto the scene earlier in history. As it is, since Israel has been selected to play such a role, a number of material blessings and physical strengths were going have to be guaranteed.	The IDF in the 21st century is the embodiment of the physical strength that God is giving to Israel in order to protect Israel. Israel is unable to be toppled, meaning their military is going to be a very strong military. Israel's Mossad is one of the world's premiere intelligence agencies.
On the Strength of Israel's Economy	From a practical standpoint, Israel's economy is quite the robust economy, doubling every decade. When I was in Israel, it became clear that on Saturdays, the country shut down, meaning a full day of rest was imposed onto the entire country. I made a phone call on that day, after which the recipient told me I wasn't even supposed to make phone calls. This may sound ridiculous, but when a full day of rest is imposed onto an entire country, you can know that the productivity of that country is going to be excellent. When a country has vocations where you work seven days a week, you can know that it is going to hurt productivity in that nation. In the ten commandments in Exodus 20, the commandment to rest on the sabbath was given four verses. When God issues a commandment, there is going to be a reason behind that commandment. Jesus himself said that the Sabbath was made for man.	Life on Earth can be incredibly difficult at times, but when you live in a society where the entire nation gets a full day of rest, with rules regarding your freedoms on that day, you can know that the entire nation will be well rested when they go back to work at the start of the new week. Getting your rest is a great help in the workplace.
	When God says in Ezekiel 36:22, " 'It is not for your sake, O house of Israel, that I am about to act, but for the sake of my holy name. . . ' (ESV)," He is not saying that He hates Jews. To an extent, these material blessings come from God because He decided to have Israel as the one that would be in the center of the Earth as His chosen vessel, even though the present Israel is in an unsaved state.	
	I don't know how Deuteronomy 28, the chapter on blessings and curses, works in Israel today.	
Once Israel gets control of the globe, I'm conjecturing the entire world will have to rest on the Sabbath, greatly helping the global economy.		

On Israel's Material Blessings

TOPIC	EXPLANATION	NOTES
On Raw Results and Strength of Israel's Economy	Even with Israel living in an unsaved state, Israel's GDP has consistently doubled every ten years. Trying to put several hundred years of the future on a chart seems almost improbable. From the 2025 GDP of \$610 billion and would Israel's GDP continue to double every ten years, by the turn of the 24th century, Israel's GDP would be in the quintillions. Rather than trying to figure out the which, how, what and when, let's leave this in God's hand, but we can know that Israel has a great future.	"It is not for your sake, O house of Israel, that I am about to act, but for the sake of my holy name, which you have profaned among the nations to which you came (ESV, Ezekiel 36:22)."
On Israel's Enemies & Obstacles	The enemies of Israel can wish and pronounce as many curses on Israel as they want, but in the end, they will only have to witness Israel's continued rise to power with all the rights and privileges of the material blessings included thereof. BDS, an acronym for trying to boycott, trying to divest funds and trying to invoke sanctions on Israel has failed miserably. Media outlets throughout the world can promote negative publicity towards Israel, but Israel will only continue to be blessed materially.	The world can hold one parade or a thousand parades, but Israel will only continue to rise in power to be sitting in the center of the Earth for many millions of years.
On Israel's Economy during a Non-Israel of God	Israel will need to survive, meaning, to an extent, that material blessings will need to be provided. It is too early to make an assessment what the difference will be between an Israel of God and a non-Israel of God. The original Israel of God is forming right now, but Israel in the early part of the 21st century is still a non-Israel of God. Since the original Israel of God is forming, material blessings that weren't exactly earned, will be bestowed upon the Jews. There's no telling how long the original Israel of God will last. Only a remnant of the Jews, according to Isaiah 10:22 and Romans 9:27, will get saved, meaning that Israel will be the Israel of God only a remnant of the time. In my vision, Israel was the Israel of God only a remnant of the time. Once a number of Israels of God and non-Israel of God have been seen, it will be clearer how the material blessings will proceed respectively.	The Israel of God is an Israel that God approves of, with the non-Israel of God being one that God does not approve of. The main outward difference between the Israel of God and a non-Israel of God pertains to Israel getting control of the globe during the Israels of God, according to Psalm 149:9 and Zechariah 14:16-19.
On the Longevity of Ezekiel 36	A number of prophecies in Ezekiel 36, such as the Messianic Jewish movement, the Arab-Israeli conflict, and immigration will come to an end, whereas prophecies such as the production indices and GDP will continue into perpetuity.	Ezekiel 38:8, which is quite imminent, has Israel as quite the wealthy country.

"Pray for the peace of Jerusalem! 'May they be secure who love you!' (ESV, Psalm 122:6)"

On Israel's Material Blessings

TOPIC	EXPLANATION	NOTES
On Israel's Blessings in Light of Punishment	With the guarantee of all these material blessings, it's easy to wonder whether Israel would ever get punished by God. The answer is yes. Jews get punished. One, Jews, according to Leviticus 26:18, get punished sevenfold for their sins. Two, even though Israel will never get toppled, and all the Gentile nations in existence today, according to Jeremiah 30:11, will come to a full end, in the same verse, God informs the Jews that they will get disciplined or punished in full measure when they sin.	With regard to the 21st century Gaza-Israel war, the world often accuses Israel of multitudes of war crimes, but my response is that since the Arabs seek to wipe Israel off the map time and time again, Israel has the God-given right to attack the Arabs, even viciously at times. Israel is not going to receive judgment from God for fighting the Arabs.
	Since God is invisible, sometimes it is quite the challenge to figure out that He is actually punishing you and what for. In Jeremiah 44:18-23, the prophet explained to the people of Judah that adversity had come upon them because they had made offerings to the queen of heaven. Further, by trial and error, the Philistines, according to I Samuel 5:6-12, rightly figured out that the tumors were due the Philistines having taken the ark of God. It's easy for several unrelated religions think to have it figured out why what adversity happened, the why and how to, and to whom it is related. The Amish man will link up adversity of a former Amish for leaving the Amish. The timing of your sin and adversity and the intensity of the adversity are clues as to whether the adversity is due to your actions.	
Other Matters	The Messianic Jews of today have differences of opinion on how to apply the Torah, meaning they are still making their way in the world. When they do get things figured out, it's also possible that they can figure out what Deuteronomy 15:4 means when it says that there won't be any poor in their land.	Since the Messianics are finding their way, you will find a number of them changing their theology over time.
On Gaining Material Blessings by Practical Means	One, tithe (Malachi 3:10) and give more than a tithe, which is called an offering. Two, make sure to get a full day of rest (Exodus 20:8-11). Three, work hard (Proverbs 10:4). Four, bless Israel, and pray for Israel (Psalm 122:6). Five, don't steal. Six, avoid excessive debt (Proverbs 22:7).	Jesus said that our life, according to Luke 12:15, is not based on the how much material possessions we have.
On the Application	TO ISRAEL: Prepare to become the dominant country in the world, and don't be proud for it. TO THE ARABS: Stop bothering Israel. Stop trying to wipe Israel off the map. TO EVERYONE ELSE: The Gentiles, including all the Arabs, should prepare to follow Israel.	People like to cry out, "It's the end of the world" when they should be saying "It's going to be a new world!"

Of all the cultures and nations, Israel is the only nation that will survive, and the Jewish culture is the only culture that will survive.

On Israel's Material Blessings

TOPIC	EXPLANATION	NOTES
The Little Prophecies Help Prove the Big Ones	There are around a dozen literal prophecies in Ezekiel 36 that are coming to fruition right now. A number of these prophecies, such as the Messianic Jewish movement and the Torah Observant movement are game changers, but there are also a number of prophecies that merely address simple matters such as economy. Even though lesser importance as they are, these lesser prophecies do help prove the big prophecies are being fulfilled. Production indices such as food, crops, livestock, fruits and vegetables do much to manifest the power of God in 21st century Israel.	Hard work, talent, resources and opportunity generally are the factors involved in people making it big and getting material blessings.
On the Next 5–30 Years	For the time being, we can know that the prophecies in Ezekiel 36 will continue. The Messianic Jewish movement and the Torah Observant movement will continue to gain steam. Israel will continue to win wars. GDP and the indices will continue to progress. If there are momentary setbacks with the material aspect, it's going to be okay. Things will come back. The Jews will continue to return to Israel, with the current projection for immigration to be fully complete to be somewhere in the 23rd century.	The big picture, including Israel getting control of the globe, may takes 100s or 1000s of years.
On the Next 100–1000 Years	For Israel to become the dominant nation on Earth, in the next 1000 years, you can expect Israel's material blessings and physical strength to be on the way to be unparalleled in world history. Further, the motive for the Ezekiel 38-39 war, ^{4a} will be due to Israel's enormous wealth.	The material blessings in Israel are in the world you can see, hear and touch.
On the Longevity of Jerusalem	Jerusalem, according to Isaiah 33:20 and Joel 3:20, will continue to exist as a city into perpetuity even though all of the Gentile cities will come to an end, according to Jeremiah 4:26 and 4:29, with Jeremiah 4:23 setting the tone of the passage as universal and not just for Judah.	Since Jerusalem is guaranteed to survive into perpetuity, how can you explain the time when she was extinct?
On the Longevity of Israel	From here on out, Israel, according to Jeremiah 31:35-36, won't get toppled or come to an end while none of the Gentile nations have such a promise from God. During this time, there will have to be a certain level of material blessings so that the Jews can live, even when they are a non-Israel of God.	Further, it is not necessary for the economic numbers to go straight up.

"If this fixed order departs from before me, declares the LORD, then shall the offspring of Israel cease from being a nation before me forever (ESV, Jeremiah 31:36)."

Three, work hard (Proverbs 10:4). Four, bless Israel, and pray for Israel (Psalm 122:6). Five, don't steal. Six, avoid excessive debt (Proverbs 22:7).	Jesus said that our life, according to Luke 12:15, is not based on the how much material possessions we have.
On the Application	TO ISRAEL: Prepare to become the dominant country in the world, and don't be proud for it. TO THE ARABS: Stop bothering Israel. Stop trying to wipe Israel off the map. TO EVERYONE ELSE: The Gentiles, including all the Arabs, should prepare to follow Israel.	People like to cry out, "It's the end of the world" when they should be saying "It's going to be a new world!"
Of all the cultures and nations, Israel is the only nation that will survive, and the Jewish culture is the only culture that will survive.		

On Israel's Material Blessings

TOPIC	EXPLANATION	NOTES
The Little Prophecies Help Prove the Big Ones	There are around a dozen literal prophecies in Ezekiel 36 that are coming to fruition right now. A number of these prophecies, such as the Messianic Jewish movement and the Torah Observant movement are game changers, but there are also a number of prophecies that merely address simple matters such as economy. Even though lesser importance as they are, these <i>lesser</i> prophecies do help prove the big prophecies are being fulfilled. Production indices such as food, crops, livestock, fruits and vegetables do much to manifest the power of God in 21st century Israel.	Hard work, talent, resources and opportunity generally are the factors involved in people making it big and getting material blessings.
On the Next 5–30 Years	For the time being, we can know that the prophecies in Ezekiel 36 will continue. The Messianic Jewish movement and the Torah Observant movement will continue to gain steam. Israel will continue to win wars. GDP and the indices will continue to progress. If there are momentary setbacks with the material aspect, it's going to be okay. Things will come back. The Jews will continue to return to Israel, with the current projection for immigration to be fully complete to be somewhere in the 23rd century.	The big picture, including Israel getting control of the globe, may takes 100s or 1000s of years.
On the Next 100–1000 Years	For Israel to become the dominant nation on Earth, in the next 1000 years, you can expect Israel's material blessings and physical strength to be on the way to be unparalleled in world history. Further, the motive for the Ezekiel 38-39 war, ^{4a} will be due to Israel's enormous wealth.	The material blessings in Israel are in the world you can see, hear and touch.
On the Longevity of Jerusalem	Jerusalem, according to Isaiah 33:20 and Joel 3:20, will continue to exist as a city into perpetuity even though all of the Gentile cities will come to an end, according to Jeremiah 4:26 and 4:29, with Jeremiah 4:23 setting the tone of the passage as universal and not just for Judah.	Since Jerusalem is guaranteed to survive into perpetuity, how can you explain the time when she was extinct?
On the Longevity of Israel	From here on out, Israel, according to Jeremiah 31:35-36, won't get toppled or come to an end while none of the Gentile nations have such a promise from God. During this time, there will have to be a certain level of material blessings so that the Jews can live, even when they are a non-Israel of God.	Further, it is not necessary for the economic numbers to go straight up.
"If this fixed order departs from before me, declares the LORD, then shall the offspring of Israel cease from being a nation before me forever (ESV, Jeremiah 31:36)."
