Arguing Millions of Years via Topography

TOPIC	EXPLANATION	NOTES
When the Continents are Split up (Revelation 8:7-11)	The time of the trumpets, according to Revelation 8:7-11, will take place while the continents are still split up. During the trumpets, the various judgments cover the said areas in thirds. Were the continents together, that would mean all the land would be together, and the water the same.	There is no way around it. This spells out into the kinds of time that the science books talk about. When we were growing up, the Bible was taken to church, but when going to school, the science book was taken. Because of this, our minds don't want to mix the content of the two when it comes to time. Actually, we have mixed some, but jiving the millions of years in the science books with the Bible is novel. Anyways, we are entering a new era.
	In the first and third trumpets, a third of the land gets hit, which is because the continents are split up. Basically, when the continents are split up, as in the present world, when something from outer space flies into Earth, the continents on the backside of the Earth don't get hit by the cataclysm because the continents are split up. Hence, the something from outer space hits the Earth in thirds.	
	In the second trumpet, only a third of the sea gets slammed because, again, the borders of the continents, which will be split up, will stop the shock wave. Would a large asteroid slam into the Earth during a supercontinent, all the oceans would be together, making for the entire ocean to get slammed and not just a third of the ocean. The theme of thirds is throughout the time of the trumpets.	
On the Supercontinent (Revelation 16:20)	The time of the bowls reads like the Earth is hosting a supercontinent. Revelation 16:20 states that there won't be any islands (or land fragments) in the Earth at that time. When the continents come together to form a supercontinent, the islands disappear. Supercontinents form once every 600 million years. The next supercontinent, according to science, is poised to form in 250 million years. Further, throughout the bowls, it's always the entire ocean or the entire land which would be consistent with the Earth hosting a supercontinent during that time.	Most instances of Israel in the Bible has the present topography, ^{1a} recording Israel when the continents were split up. Psalm 114:3-6 has Israel landlocked by land without there being a sea as a border. The sea fleeing and the mountains skipping like rams signifies their absence in Israel. Wala! Israel during a supercontinent! The best argument comes from the three full chapters, Revelation 8-9 & 16, to support millions of years in front of us.
	In addition, the second bowl, where something kills all the marine life in the ocean, is consistent with a large asteroid slamming into the oceans during a supercontinent. The oceans having come together in a supercontinent would prepare the way for a large asteroid to kill all the marine life in the ocean. Were the continents split up, as in the second trumpet, only a portion of the sea life would die because the continents would stop the shock wave from reaching the entire sea. It should be noted that it doesn't say that the killer is an asteroid, but the situation is consistent with such a scenario.	

The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.

^{1a} Zechariah 14:8; Deuteronomy 11:24

Arguing Millions of Years via Cosmology, Astronomy, & Literary Works

TOPIC	EXPLANATION	NOTES
Via Topography (Continued)	Africa pushing north to bump against Europe is a scientific fact that is en route right now, not a belief. In the process of Africa pushing north, the Sinai Peninsula, the Red Sea, and the Mediterranean Sea will get completely destroyed. The Sinai Peninsula, being in the shape of a tongue, easily fits the scenario in Isaiah 11:15. A large asteroid wouldn't fit the bill in this case because it would simply destroy and not leave seven channels in the new configuration.	Taking up millions of years to push against the Sinai Peninsula, only to destroy it fits Isaiah 11:15. This stage would be necessary for Israel to be landlocked during a supercontinent.
Via Cosmology	The Bible, according to Psalm 102:26-27, Isaiah 51:6 & Hebrews 1:10-11, says that the universe will wear out like a garment. Even if you purposely rip a garment to shreds or burn it, it's not wearing out. A garment will wear out only over time. Only time will allow for the universe to wear out, and the scientists are saying the universe is still near its beginning. Yes, God could speed up the process.	"(11) they will perish, but you remain; they will all wear out like a garment, (ESV, Hebrews 1:11)."
Via Astronomy	Three different locations in the New Testament state that the stars will fall. Before the tribulation, the stars fall to Earth, ^{2a} and after the tribulation, the stars just fall. ^{2b} From a scientific standpoint, stars move, but it takes the kinds of time you find in the science books for constellations to get destroyed, only to form new ones. Other than the stars falling, there is not a specific verse conveying the destruction of the constellations, but you can get there through the back door. Reading the Bible, we do not find the Bible religion based on constellations, proving the God of the Bible is the real God.	I would never hold to such a view regarding the Solar System revolving around the center of the Milky Way galaxy unless I had plenty of other scriptures to prove that millions of years are yet in front of us, which is the case.
	Further, the sky vanishing like a scroll being rolled up ^{2c} is the Solar System, in my view, revolving around the center of the Milky Way galaxy while the stars are disappearing in the night sky.	
Via Literary Works	Revelation 17:9 employs figurative language to convey that literal mountains will form. When this type of figurative language in Revelation 17:9 surfaces, generally, the figurative language is in the first part of the sentence while the second part of the verse states the literal meaning. For example, the ten horns in Revelation 17:12 are ten kings. The lampstands in Revelation 1:20 are churches. The beasts in Daniel 7:17 are kings. The seven torches of fire in Revelation 4:5 are the seven spirits of God. The incense in Revelation 5:8 are the prayers of the saints. The two olive trees in Zechariah 4:12 are the two witnesses in Revelation 11. You should get the point. So the seven heads are seven mountains.	The figurative language in these cases does not employ the word "like," making this figurative language to utilize a literary style involving a literal sense.
The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.		

^{2a} Revelation 6:13 ^{2b} Matthew 24:29 ^{2c} Hebrews 1:12; Revelation 6:14

Arguing Millions of Years via Science, History, Theology, & Geology

TOPIC	EXPLANATION	NOTES
Via Science	Scientists have figured out that the continents move. With satellite technology, they can get the movements of the continents, also called continental drift, each year down to the millimeter. It's easy to imagine something happening to increase the speed of these movements, but the aging of the universe can't be sped up. While a number of the verses assume that the continents move, Revelation 6:14 just straight up says that the continents move.	"... and every mountain and island was removed from its place (ESV, Revelation 6:14)."
Via History	The nations, according to Deuteronomy 32:8, will number in the millions, as in as the number of the children of Israel, so will there be the number of nations. With countries generally enjoying around 250 years of rule in the present era, a thousand years will produce around 800 nations. In another era, the average amount of time might be more. Since Jacob, the Jews probably number into the hundreds of millions, meaning the time will be so long that there will be millions of nations.	"When the Most High gave to the nations their inheritance, when he divided mankind, he fixed the borders of the peoples according to the number of the sons of God (ESV, Deut 32:8)."
	The unsaved religions of the world, according to Jeremiah 10:11 & Jeremiah 16:19-21, will get removed from the Earth. Israel, no doubt, will play a role in the matter. In the present era, some of these unsaved religions getting removed would be ascribed to the time of the mark of the beast. However, some of these would wake up during the Israels of God and realize they were born into lies.	When realizing that the God of Israel is real, some religions will go to nothing once it is established that Israel will be the boss.
Via Theology	The Israel of God, mentioned in the Bible once in Galatians 6:16, succinctly put, is the Israel that God approves of, meaning the Israel in the Old Testament was not approved of God. Otherwise, that Israel would not have gotten rent in two and toppled. It takes time for nations to form and the Israel of God is no exception. During Christianity, Israel was not approved of God. The nation of Israel will survive into perpetuity, but the Israels of God will come and go, raising the need for long strands of time.	With there being multiple salvations of the Jews, ^{3a} it raises the need for multiple Israels of God. During downtimes, the Gentiles will lead, as in the time called Christianity.
Via Geology	Mountains form when fault lines rub against each other. There is a major fault line that runs right up through Israel, even near Megiddo. Where the plain of Megiddo is today, according to Revelation 16:16, a mountain will form. Ἀρμαγεδών, the Greek and מגידו, the Hebrew for Armageddon, translate into Mount Megiddo. It takes millions of years for mountains to form.	"Then the spirits gathered the kings to the place called in Hebrew Har-Megiddo (TLV, Revelation 16:16)."

The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.

On Isaiah 24 & the Fate of the Earth

TOPIC	EXPLANATION	NOTES
On the Backdrop	The Apocalypse, which does not cover Earth's fate, is a time when the Earth is enjoying the kind of health that allows for the masses to survive in the Earth. The Apocalypse takes us up to the supercontinent, but due to the poor health of the Earth in Isaiah 24, there appears to be a significant time up to that point. These are possible arguments, not dogmatic conclusions regarding Earth's fate.	Isaiah 24 presents Earth in a very unhealthy state, explaining why life has become small scale just trying to survive.
On the Sun's Role	According to science, after entering the red giant stage, the sun's larger mass then results in it engulfing the Earth. The inhabitants would be getting scorched as the Earth nears the sun. ^{4a}	The present stage of the sun is called the main sequence.
On the Earth's Present Orbit	At present, the Earth—due to the sun decreasing its mass—is actually moving away from the sun by 1.5 centimeters per year. ^{4b} At this rate, 200 million years would still result in the same orbit. To break away, the speed would also have to increase. The present orbit has the perihelion at 91.3 million miles from the sun, with the aphelion at 94.5 million miles from the sun, ^{4c} forming a near circle.	Since man has limited experience with science, it's possible that there are missing links involved in our understanding of Earth's fate at this time.
As a Drunken Man	Just as a drunken man loses control of his walk, the Earth will lose control when it loses its orbit.	See Amos 8:9-10 for a description.
On the Earth Breaking Apart	Science has the Earth completely breaking apart before it reaches the sun. When a planet is sucked in by another larger planet, once the smaller planet reaches the Roche limit, the planet simply cannot hold together anymore, completely splitting apart. ^{4d}	There would be a big difference between a black hole and a star destroying a rocky planet.
Swaying like a Hut	The swaying like a hut could refer to a spiral ellipse as the Earth reels into the sun. It is highly unlikely that the Earth would instantly halt its orbit only to fall straight into the sun. Speed and weight would equal velocity, determining the actual path into the sun. How long this will take is yet to be seen.	A straight halt in Earth's orbit, followed by reeling into the sun, would take around two months.
On the Earth Falling & Not Rising Again	Due to a greater mass, after turning into a red giant, the sun swallows up the Earth. The gravity from the sun would make the Earth fall into the sun. The only way for falling to work in relation to gravity is for a larger body to be in proximity of a smaller body. Not rising again refers to this Earth's final destruction, never to function as a planet again.	Isaiah 24:19-20 is the principal passage on the fate of the Earth, supplementing 2 Peter 3:10-12.
God is invisible, calling for us to recognize and figure out why the calamities are happening in our lives. Isaiah 24:5 states the spiritual reason Earth will be done with life.		

Questions on Millions of Years

1. Can you name one excellent application of millions of years in the Bible?	21. Is there a verse that describes the position of the continents during the bowls? ^{5b}
2. Does science teach that there are huge strands of time in front of Earth?	22. What do we know about the seven thunders? (Rev 10:3-4)
3. Is man a social creature? How does this concept fit into today's eschatological beliefs?	23. Is there a verse in the Apocalypse that lays out in detail that the continents move? ^{5c}
4. Does being a social creature have an effect on one's religious beliefs?	24. Can you prove millions of years yet in front of life on Earth, according to the scientists?
5. What is the main reason that the entire body of Christ is obsessed with the End Times?	25. What word is employed in the trumpets that states that the continents are split up?
6. What is the one reason most religious people take on the religion of their birth?	26. Is the same word applied during the time of the bowls?
7. Have the 45,000 denominations with their every wind of doctrine made herself ready?	27. Did the apostle John see the supercontinent in the Apocalypse?
8. Can you find out, within reason, the layout of the continents in the Apocalypse? ^{5a}	28. What verse in the Apocalypse directly states that the continents move?
9. How can you prove millions of years yet in front of man via topography? (Rev 6:14)	29. What are the two reasons church people do not endorse millions of years in the Bible?
10. How can you prove millions of years yet in front of man via theology? (Galatians 6:16)	30. Does the body of Christ need a central figure to lead in the preparation?
11. How can you prove millions of years yet in front of man via cosmology? (Isa 24)	31. How many arguments for the millions of years come out of the 6th seal?
12. How can you prove millions of years yet in front of man via astronomy? (Rev 6:13)	32. Can you explain the context of the 6th seal in relation to the millions of years?
13. How can you prove millions of years yet in front of man via literary works? (Rev 17:9)	33. Which portion of the seals was en route at the creation?
14. How can you prove millions of years yet in front of man via geology? (Rev 16:16)	34. Is there a doctrinal reason that the constellations are not emphasized?
15. How can you prove millions of years yet in front of man via history? (Deut 32:8)	35. Will any of the current world's religions survive? What about Christianity?
16. Has science proven that the continents move?	36. What is the main difference between the world's religions and the Bible religion?
17. Can the satellites monitor the movements of the continents?	37. Will new religions spring up?
18. To what degree can the satellites monitor the movements of the continents?	38. Where does it say that the purpose of Israel is for the millennium?
19. What kind of layout are the continents in during the time of the trumpets?	39. What is it about Isaiah 49:6, Isaiah 51:4 and Acts 13:47 that is so important?
20. Is there a verse that describes the position of the continents during the trumpets?	40. Does God want Israel to sit in the Earth so He can save people for millions of years?

^{5a} Revelation 8-9 & Revelation 16 ^{5b} Revelation 16:20 ^{5c} Revelation 6:14

Arguing Millions of Years via Topography

TOPIC	EXPLANATION	NOTES
When the Continents are Split up (Revelation 8:7-11)	The time of the trumpets, according to Revelation 8:7-11, will take place while the continents are still <i>split up</i> . During the trumpets, the various judgments cover the said areas in thirds. Were the continents together, that would mean all the land would be together, and the water the same.	There is no way around it. This spells out into the kinds of time that the science books talk about. 10. How can you prove millions of years yet in front of man via theology? (Galatians 6:16)	30. Does the body of Christ need a central figure to lead in the preparation?
11. How can you prove millions of years yet in front of man via cosmology? (Isa 24)	31. How many arguments for the millions of years come out of the 6th seal?
12. How can you prove millions of years yet in front of man via astronomy? (Rev 6:13)	32. Can you explain the context of the 6th seal in relation to the millions of years?
13. How can you prove millions of years yet in front of man via literary works? (Rev 17:9)	33. Which portion of the seals was en route at the creation?
14. How can you prove millions of years yet in front of man via geology? (Rev 16:16)	34. Is there a doctrinal reason that the constellations are not emphasized?
15. How can you prove millions of years yet in front of man via history? (Deut 32:8)	35. Will any of the current world's religions survive? What about Christianity?
16. Has science proven that the continents move?	36. What is the main difference between the world's religions and the Bible religion?
17. Can the satellites monitor the movements of the continents?	37. Will new religions spring up?
18. To what degree can the satellites monitor the movements of the continents?	38. Where does it say that the purpose of Israel is for the millennium?
19. What kind of layout are the continents in during the time of the trumpets?	39. What is it about Isaiah 49:6, Isaiah 51:4 and Acts 13:47 that is so important?
20. Is there a verse that describes the position of the continents during the trumpets?	40. Does God want Israel to sit in the Earth so He can save people for millions of years?

Arguing Millions of Years via Topography

TOPIC	EXPLANATION	NOTES
When the Continents are Split up (Revelation 8:7-11)	The time of the trumpets, according to Revelation 8:7-11, will take place while the continents are still _____. During the trumpets, the various judgments cover the said areas in thirds. Were the continents together, that would mean all the land would be together, and the water the same.	There is no way around it. This spells out into the kinds of time that the science books talk about. When we were growing up, the Bible was taken to church, but when going to school, the science book was taken. Because of this, our minds don't want to mix the content of the two when it comes to time. Actually, we have mixed some, but jiving the millions of years in the science books with the Bible is novel. Anyways, we are entering a new era.
	In the first and third trumpets, a third of the land gets hit, which is because the continents are split up. Basically, when the continents are _____, as in the present world, when something from outer space flies into Earth, the continents on the backside of the Earth don't get hit by the cataclysm because the continents are split up. Hence, the something from outer space hits the Earth in thirds.	
	In the second trumpet, only a third of the sea gets slammed because, again, the borders of the continents, which will be _____, will stop the shock wave. Would a large asteroid slam into the Earth during a supercontinent, all the oceans would be together, making for the entire ocean to get slammed and not just a third of the ocean. The theme of thirds is throughout the time of the trumpets.	
On the Supercontinent (Revelation 16:20)	The time of the bowls reads like the Earth is _____ a supercontinent. Revelation 16:20 states that there won't be any islands (or land fragments) in the Earth at that time. When the continents come together to form a supercontinent, the islands disappear. Supercontinents form once every 600 million years. The next supercontinent, according to science, is poised to form in 250 million years. Further, throughout the bowls, it's always the entire ocean or the entire land which would be consistent with the Earth hosting a supercontinent during that time.	Most instances of Israel in the Bible has the present topography, ^{1a} recording Israel when the continents were split up. Psalm 114:3-6 has Israel landlocked by land without there being a sea as a border. The sea fleeing and the mountains skipping like rams signifies their absence in Israel. Wala! Israel during a supercontinent! The best argument comes from the three full chapters, Revelation 8-9 & 16, to support millions of years in front of us.
	In addition, the second bowl, where something kills all the marine life in the ocean, is consistent with a large asteroid slamming into the oceans during a supercontinent. The _____ having come together in a supercontinent would prepare the way for a large asteroid to kill all the marine life in the ocean. Were the continents split up, as in the second trumpet, only a portion of the sea life would die because the continents would stop the shock wave from reaching the entire sea. It should be noted that it doesn't say that the killer is an asteroid, but the situation is consistent with such a scenario.	

The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.

^{1a}Zechariah 14:8; Deuteronomy 11:24

Arguing Millions of Years via Cosmology, Astronomy, & Literary Works

TOPIC	EXPLANATION	NOTES
Via Topography (Continued)	Africa pushing north to bump against Europe is a scientific fact that is en route right now, not a belief. In the process of Africa pushing north, the Sinai Peninsula, the Red Sea, and the Mediterranean Sea will get completely destroyed. The Sinai Peninsula, being in the shape of a _____, easily fits the scenario in Isaiah 11:15. A large asteroid wouldn't fit the bill in this case because it would simply destroy and not leave seven channels in the new configuration.	Taking up millions of years to push against the Sinai Peninsula, only to destroy it fits Isaiah 11:15. This stage would be necessary for Israel to be landlocked during a supercontinent.
Via Cosmology	The Bible, according to Psalm 102:26-27, Isaiah 51:6 & Hebrews 1:10-11, says that the universe will wear out like a _____. Even if you purposely rip a garment to shreds or burn it, it's not wearing out. A garment will wear out only over time. Only time will allow for the universe to wear out, and the scientists are saying the universe is still near its beginning. Yes, God could speed up the process.	"(11) they will perish, but you remain; they will all wear out like a garment, (ESV, Hebrews 1:11)."
Via Astronomy	Three different locations in the New Testament state that the stars will fall. Before the tribulation, the stars fall to Earth, ^{2a} and after the tribulation, the stars just fall. ^{2b} From a scientific standpoint, stars move, but it takes the kinds of time you find in the science books for constellations to get destroyed, only to form new ones. Other than the stars _____, there is not a specific verse conveying the destruction of the constellations, but you can get there through the back door. Reading the Bible, we do not find the Bible religion based on constellations, proving the God of the Bible is the real God.	I would never hold to such a view regarding the Solar System revolving around the center of the Milky Way galaxy unless I had plenty of other scriptures to prove that millions of years are yet in front of us, which is the case.
	Further, the sky vanishing like a scroll being rolled up ^{2c} is the Solar System, in my view, revolving around the center of the Milky Way galaxy while the stars are _____ in the night sky.	
Via Literary Works	Revelation 17:9 employs figurative language to convey that literal mountains will _____. When this type of figurative language in Revelation 17:9 surfaces, generally, the figurative language is in the first part of the sentence while the second part of the verse states the literal meaning. For example, the ten horns in Revelation 17:12 are ten kings. The lampstands in Revelation 1:20 are churches. The beasts in Daniel 7:17 are kings. The seven torches of fire in Revelation 4:5 are the seven spirits of God. The incense in Revelation 5:8 are the prayers of the saints. The two olive trees in Zechariah 4:12 are the two witnesses in Revelation 11. You should get the point. So the seven heads are seven mountains.	The figurative language in these cases does not employ the word "like," making this figurative language to utilize a literary style involving a literal sense.

The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.

Arguing Millions of Years via Science, History, Theology, & Geology

TOPIC	EXPLANATION	NOTES
Via Science	Scientists have figured out that the _____ move. With satellite technology, they can get the movements of the continents, also called continental drift, each year down to the millimeter. It's easy to imagine something happening to increase the speed of these movements, but the aging of the universe can't be sped up. While a number of the verses assume that the continents move, Revelation 6:14 just straight up says that the continents move.	". . . and every mountain and island was removed from its place (ESV, Revelation 6:14)."
Via History	The nations, according to Deuteronomy 32:8, will number in the _____, as in as the number of the children of Israel, so will there be the number of nations. With countries generally enjoying around 250 years of rule in the present era, a thousand years will produce around 800 nations. In another era, the average amount of time might be more. Since Jacob, the Jews probably number into the hundreds of millions, meaning the time will be so long that there will be millions of nations.	"When the Most High gave to the nations their inheritance, when he divided mankind, he fixed the borders of the peoples according to the number of the sons of God (ESV, Deut 32:8)."
	The unsaved religions of the world, according to Jeremiah 10:11 & Jeremiah 16:19-21, will get _____ from the Earth. Israel, no doubt, will play a role in the matter. In the present era, some of these unsaved religions getting removed would be ascribed to the time of the mark of the beast. However, some of these would wake up during the Israel of God and realize they were born into lies.	When realizing that the God of Israel is real, some religions will go to nothing once it is established that Israel will be the boss.
Via Theology	The Israel of God, mentioned in the Bible once in Galatians 6:16, succinctly put, is the Israel that God approves of, meaning the Israel in the Old Testament was not approved of God. Otherwise, that Israel would not have gotten rent in two and toppled. It takes time for nations to form and the Israel of God is no exception. During Christianity, Israel was not approved of God. The nation of Israel will survive into _____, but the Israel of God will come and go, raising the need for long strands of time.	With there being multiple salvations of the Jews, ^{3a} it raises the need for multiple Israel of God. During downtimes, the Gentiles will lead, as in the time called Christianity.
Via Geology	Mountains form when _____ rub against each other. There is a major fault line that runs right up through Israel, even near Megiddo. Where the plain of Megiddo is today, according to Revelation 16:16, a mountain will form. Ἀρμαγεδών, the Greek and מגידו, the Hebrew for Armageddon, translate into Mount Megiddo. It takes millions of years for mountains to form.	"Then the spirits gathered the kings to the place called in Hebrew Har-Megiddo (TLV, Revelation 16:16)."
The purpose to tout millions of years pertains to the longevity of Israel. See Jeremiah 31:35-36. Look on the bright side; evolution will be a thing of the past.		

On Isaiah 24 & the Fate of the Earth

TOPIC	EXPLANATION	NOTES
On the Backdrop	The Apocalypse, which does not cover Earth's fate, is a time when the Earth is enjoying the kind of health that allows for the _____ to survive in the Earth. The Apocalypse takes us up to the supercontinent, but due to the poor health of the Earth in Isaiah 24, there appears to be a significant time up to that point. These are possible arguments, not dogmatic conclusions regarding Earth's fate.	Isaiah 24 presents Earth in a very unhealthy state, explaining why life has become small scale just trying to survive.
On the Sun's Role	According to science, after entering the red giant stage, the sun's larger mass then results in it _____ the Earth. The inhabitants would be getting scorched as the Earth nears the sun. ^{4a}	The present stage of the sun is called the main sequence.
On the Earth's Present Orbit	At present, the Earth—due to the sun decreasing its mass—is actually moving away from the sun by 1.5 centimeters per year. ^{4b} At this rate, 200 million years would still result in the same _____. To break away, the speed would also have to increase. The present orbit has the perihelion at 91.3 million miles from the sun, with the aphelion at 94.5 million miles from the sun, ^{4c} forming a near circle.	Since man has limited experience with science, it's possible that there are missing links involved in our understanding of Earth's fate at this time.
As a Drunken Man	Just as a drunken man _____ control of his walk, the Earth will lose control when it loses its orbit.	See Amos 8:9-10 for a description.
On the Earth Breaking Apart	Science has the Earth completely breaking apart before it reaches the sun. When a planet is sucked in by another larger planet, once the smaller planet reaches the _____, the planet simply cannot hold together anymore, completely splitting apart. ^{4d}	There would be a big difference between a black hole and a star destroying a rocky planet.
Swaying like a Hut	The swaying like a hut could refer to a _____ ellipse as the Earth reels into the sun. It is unlikely that the Earth would instantly halt its orbit only to fall straight into the sun. Speed and weight would equal velocity, determining the actual path into the sun. How long this will take is yet to be seen.	A straight halt in Earth's orbit, followed by reeling into the sun, would take around two months.
On the Earth Falling & Not Rising Again	Due to a greater mass, after turning into a red giant, the sun swallows up the Earth. The gravity from the sun would make the Earth fall into the sun. The only way for falling to work in relation to gravity is for a larger body to be in proximity of a smaller body. Not rising again refers to this Earth's final destruction, never to _____ as a planet again.	Isaiah 24:19-20 is the principal passage on the fate of the Earth, supplementing 2 Peter 3:10-12.
God is invisible, calling for us to recognize and figure out why the calamities are happening in our lives. Isaiah 24:5 states the spiritual reason Earth will be done with life.		

Questions on Millions of Years

1. Can you name one excellent application of millions of years in the Bible?	21. Is there a verse that describes the position of the continents during the bowls? ^{5b}
2. Does science teach that there are huge strands of time in front of Earth?	22. What do we know about the seven thunders? (Rev 10:3-4)
3. Is man a social creature? How does this concept fit into today's eschatological beliefs?	23. Is there a verse in the Apocalypse that lays out in detail that the continents move? ^{5c}
4. Does being a social creature have an effect on one's religious beliefs?	24. Can you prove millions of years yet in front of life on Earth, according to the scientists?
5. What is the main reason that the entire body of Christ is obsessed with the End Times?	25. What word is employed in the trumpets that states that the continents are split up?
6. What is the one reason most religious people take on the religion of their birth?	26. Is the same word applied during the time of the bowls?
7. Have the 45,000 denominations with their every wind of doctrine made herself ready?	27. Did the apostle John see the supercontinent in the Apocalypse?
8. Can you find out, within reason, the layout of the continents in the Apocalypse? ^{5a}	28. What verse in the Apocalypse directly states that the continents move?
9. How can you prove millions of years yet in front of man via topography? (Rev 6:14)	29. What are the two reasons church people do not endorse millions of years in the Bible?
10. How can you prove millions of years yet in front of man via theology? (Galatians 6:16)	30. Does the body of Christ need a central figure to lead in the preparation?
11. How can you prove millions of years yet in front of man via cosmology? (Isa 24)	31. How many arguments for the millions of years come out of the 6th seal?
12. How can you prove millions of years yet in front of man via astronomy? (Rev 6:13)	32. Can you explain the context of the 6th seal in relation to the millions of years?
13. How can you prove millions of years yet in front of man via literary works? (Rev 17:9)	33. Which portion of the seals was en route at the creation?
14. How can you prove millions of years yet in front of man via geology? (Rev 16:16)	34. Is there a doctrinal reason that the constellations are not emphasized?
15. How can you prove millions of years yet in front of man via history? (Deut 32:8)	35. Will any of the current world's religions survive? What about Christianity?
16. Has science proven that the continents move?	36. What is the main difference between the world's religions and the Bible religion?
17. Can the satellites monitor the movements of the continents?	37. Will new religions spring up?
18. To what degree can the satellites monitor the movements of the continents?	38. Where does it say that the purpose of Israel is for the millennium?
19. What kind of layout are the continents in during the time of the trumpets?	39. What is it about Isaiah 49:6, Isaiah 51:4 and Acts 13:47 that is so important?
20. Is there a verse that describes the position of the continents during the trumpets?	40. Does God want Israel to sit in the Earth so He can save people for millions of years?
